SUBJECT INDEX

Canadian Journal of Animal Science, Volume 70, 1990

Absorption
  nutrient metabolism during gestation in gilts, 927
Accelerated lambing
  ewe productivity under an accelerated lambing system, 967
Acid-base, **1181**
Acid-base balance
  bicarbonate buffers for dairy cows, 875
Additives, **1162**, **1188**, **1191**
Adipose tissue
  porcine adipose tissue and muscle metabolism, 199
Adult weight
  growth of mice sired by males with rat growth hormone transgene, 979
Age
  sexual maturity and gilt performance, 469
Age-of-dam adjustment
  in beef cattle, 963
Aggression
  aggression in regrouped gilts, 363
Agonistic behavior, **1196**
  mixing beef cows, 345
Alanine
  glucose, alanine and cold-exposed sheep, 517
Alert, **1196**
Alfalfa, **1159**, **1192**, **1205**
  preservation of moist hay, 611
  sodium and potassium concentrations in the rumen, 235
Alpha-linolenic acid
  omega-3 fatty acids in pigs fed flax, 251
α-tocopherol
  effect of α-tocopherol on oxidized flavor in milk, 561
Amino acids, **1159**, **1165**, **1173**
  high-lysine barley derived from Risø, 1508, 279
Ammonia
  nutritive value of canola screenings, 267
Ammoniated high-moisture barley, **1175**
Ammoniation, **1188**, **1205**
Ammonium chloride
  bicarbonate buffers for dairy cows, 875
Amplitude, **1173**
Analog
  GRF analog, GH release and milk production, 525
Androst-16-ene, **1198**
  chemical test for boar taint, 1029
Anestrus
  modelling postpartum cows, 287
Angus
  blood composition in growth selection bulls, 305
Antifungal, **1191**
Appetite
  lactation, ovulation and sow performance, 135
Arachidonic acid
  omega-3 fatty acids in pigs fed flax, 251
Articular cartilage
  articular cartilage lesions of growing swine, 255
Artificial insemination
  uterine infustion of foreign proteins in swine, 129
  vaginal mucus conductivity and breeding in swine, 451
Artificial rearing
  artificial rearing of colostrum-deprived piglets, 655
Ash
  body composition of animals, 1127
Aspartate aminotransferase-isoenzyme
  blood enzymes in pigs, 543
Autoclaving
  naked oats in broiler chick diets, 623
  performance of chicks fed *Lathyrus sativus* after autoclaving, 739
Autoimmunization, **1193**
Average daily gain, **1168**, **1202**, **1203**, **1204**
  snow intake by weaned calves, 711
Aviary, **1197**
Ayrshire
  calving ease in Ayrshires, 67

Backcross
  calving ease and mortality in beef cows, 45
  live body measures in beef females, 389
  preweaning performance of beef calves, 35
Backfat
  carcass characteristics of cull sows, 1141
  response to selection for reduced backfat thickness in swine, 973

Page numbers in **boldface** refer to abstracts.

sexual maturity and gilt performance, 469
Bambermycins
flavomycin as a growth promoter, 937
Barley, **1159**, **1189**
high-lysine barley derived from Risø, 1508, 279
formaldehyde treatment of barley, 581
grain and protein sources for steers, 921
lentils in pig diets, 329
regression estimates of amino acids in Manitoba barley, 333
supplementation of grass silage for steers, 313
Battery cage, **1197**
ethogram of laying hens in cages, 751
Beef, **1178**, **1187**
electrical stimulation of Charolais carcasses, 1131
postmortem muscle glycolysis and beef quality, 431
quality variation within beef longissimus muscle, 707
Beef cattle, **1173**, **1187**, **1203**, **1205**
age-of-dam adjustment in beef cattle, 963
calving ease and mortality in beef cows, 45
chromosomal anomalies among western Canadian beef, 779
clonidine effects on cattle, 857
crosses of beef cattle, 15
live body measures in beef females, 389
modelling postpartum cows, 287
phenotypic variation within paternal half sib families, 703
preweaning performance of beef calves, 35
selection for yearling weight, 1017
sources of variation in weaning weight, 761
Beef bulls, **1171**, **1172**
Beet pulp, **1185**
Behavior, **1170**, **1197**
abnormal, **1183**, **1184**
aggression in regrouped gilts, 363
agonistic, 345, **1196**
alternative housing system for sows, 957
ethogram of laying hens in cages, 751
periparturient behavior of dairy cows, 355
stereotypic behavior of sows, 953
zeranol effects on the development of bull calves, 1005
β-glucan
naked oats in broiler chick diets, 623
B-N-oxalyl-amino-L-alanine
performance of chicks fed *Lathyrus sativus* after autoclaving, 739
Big round bales, **1191**
Bile salt
naked oats in broiler chick diets, 623
Biological control agents, **1191**
Birth weight, **1202**
relation of weight gain to birth weight, 167
Bloat
sodium and potassium concentrations in the rumen, 235
Blood
blood composition in growth selection bulls, 305
reproductive-endocrine status of the boar, 121
Blood metabolites, **1197**
Blood serum components
identifying stress-susceptible pigs, 845
Boar
reproductive-endocrine status of the boar, 121
Boar exposure, **1180**
Boar taint, **1198**
chemical test for boar taint, 1029
Body composition
body composition of animals, 1127
endurance exercise in sheep, 97
energy intake of breeder pullets, 259
progressive-resistance exercise in sheep, 89
Body condition, **1203**
modelling postpartum cows, 287
Body energy content
body composition of animals, 1127
Body measurements
live body measures in beef females, 389
Body size, **1187**
Body weight
energy intake of breeder pullets, 259
triticale for finishing heifers, 325
Bomb calorimetry
body composition of animals, 1127
Bone, **1189**
bone volume and specific gravity, 1137
Booroola
reproduction in Booroola-cross ewe lambs, 55
Bouvillons
steroides musculaires et qualité de la viande, 303
Bovine, **1164**, **1183**, **1194**, **1195**
Bovine feces
chlorinated insecticides in bovine feces, 337
Bovine somatotropin, **1177**
Breast meat
diet methionine and lysine and broiler breast meat, 673
Breeding, **1171**, **1184**
Broiler
diet methionine and lysine and broiler breast meat, 673
Broiler breeder
energy intake of breeder pullets, 259
heat production of breeders, 667

Bull, **1186**
blood composition in growth selection bulls, 305
electrolyte balance in transported bulls, 107
Bull exposure
bull exposure and postpartum interval in beef cows, 537
Bull test, **1168**
Bull test station, **1204**
Buoyancy, **1193**
buoyancy separation of particles and NMR examination, 1099
By-product, **1200**

Calcium, **1172**
articular cartilage lesions of growing swine, 255
calcium and sulphur in canola meal, 685
calcium kinetics in sheep, 1109
Ca, particle size and forage effects on digestion, 591
Calcium absorption
calcium metabolism in sheep, 887
Calf, **1172**, **1175**, **1182**, **1183**, **1186**, **1202**
iron concentration in diets for grain-fed calves, 1053
lactation and growth of wapiti, 551
snow intake by weaned calves, 711
Calf growth
yield and composition of milk in beef cattle, 409
Calf health, **1174**
Calving
calving ease and mortality in beef cows, 45
calving ease in Ayrshires, 67
Canola, **1161**
calcium and sulphur in canola meal, 685
Canola fat, **1176**
Canola screenings
nutritive value of canola screenings, 267
Carbohydrate
crystallinity of carbohydrates by ^{13}C CP/MAS NMR, 695
Carbon-13 CP/MAS NMR
crystallinity of carbohydrates by ^{13}C CP/MAS NMR, 695
Carcass, **1170**, **1179**, **1181**
lentils in pig diets, 329
preslaughter management of beef cattle, 1155
Carcass characteristics
GRF and TRF effects on pig growth performance, 459
Carcass composition, **1177**, **1187**
carcass characteristics of cull sows, 1141
load carrying in sheep, 81
ractopamine on pig performance, carcass and meat quality, 943
Carcass quality
electrolyte balance in transported bulls, 107
Carcass yield
clonidine effects on cattle, 857
Caseins
effects of somatotropin in lactating cows, 811
Castration, **1168**, **1169**
castration stress in calves, 1063
Catch-up growth, **1170**
Cattle, **1161**, **1164**, **1171**, **1184**, **1185**, **1202**
Ca, particle size and forage effects on digestion, 591
carryover effects of supplemental Cu, Mo and S, 735
castration stress in calves, 1063
copper sources for growing steers, 895
Cu in the liver of sheep and cattle, 727
distribution of cattle on slope, 1
effects of Mo and S on minerals, 905
endoscopic technique for rumino-reticulum particulate kinetics, 219
feed intake of growing bulls, 441
feed temperature and cold susceptibility, 191
grain and protein sources for steers, 921
hay digestion by cattle and horses, 601
Mo and rumen dry matter disappearance, 319
preslaughter management of beef cattle, 1155
relation of weight gain to birth weight, 167
ruminal degradation of vitamin A, 227
sodium and potassium concentrations in the rumen, 235
supplementation of grass silage for steers, 313
Cattle (beef)
mixing beef cows, 345
Cereal
sequential digestion of cereals by rumen microbes, 571
Ceruloplasmin, **1189**
Charolais
electrical stimulation of Charolais carcasses, 1131
Chem-cast®
castration stress in calves, 1063
Chemical treatment, **1161**
Chicken, **1193**
calcium and sulphur in canola meal, 685
Chicks
performance of chicks fed *Lathyrus sativus* after autoclaving, 739
Chimera
chromosomal anomalies among western Canadian beef, 779
Chitin, **1188**
Chlordane

chlorinated insecticides in bovine feces, 337
Chromium excretion, **1190**
Chromosome
chromosomal anomalies among western Canadian beef, 779
Chronic cold exposure
glucose, alanine and cold-exposed sheep, 517
Clonidine
clonidine effects on cattle, 857
Cold
feed intake of growing bulls, 441
feed temperature and cold susceptibility, 191
responses to somatostatin during cold exposure, 1073
Collagen solubility
electrical stimulation of Charolais carcasses, 1131
Color
iron concentration in diets for grain-fed calves, 1053
Color test, **1198**
Composition
blood composition in growth selection bulls, 305
Composition of milk
effects of somatotropin in lactating cows, 811
Concentrate, **1161**, **1174**, **1203**
ruminal degradation of vitamin A, 227
sequential digestion of cereals by rumen microbes, 571
Conditioning, **1190**
Conservation, **1190**
Consumer acceptability, **1178**
Contractions, **1173**
Cooling
ruminal cooling of sheep, 833
Copper, **1189**
carryover effects of supplemental Cu, Mo and S, 735
copper sources for growing steers, 895
Copper chloride
Cu in the liver of sheep and cattle, 727
Copper proteinate
copper sources for growing steers, 895
Copper sulfate
copper sources for growing steers, 895
Cu in the liver of sheep and cattle, 727
Corn
energy supplementation, 867
grain and protein sources for steers, 921
Corpus luteum, **1171**
GnRH at breeding in sheep, 983
Correlated response
selection for yearling weight, 1017
Cortisol, **1193**, **1196**
castration stress in calves, 1063
cortisol in postpartum cows, 723
mixing beef cows, 345
Cosinor
ruminal passage rate of small particles, 243
Cotton seed hulls, **1189**
Cow subcutaneous fat change
yield and composition of milk in beef cattle, 409
Cow-calf, **1187**
Cow efficiency
ources of variation in weaning weight, 761
Cow weight change
yield and composition of milk in beef cattle, 409
Cows, **1194**, **1203**
bull exposure and postpartum interval in beef cows, 537
live body measures in beef females, 389
Cows (dairy)
GRF analog, GH release and milk production, 525
GRF and(or) TRF in dairy cows, 175
Crab shell, **1186**
Creep, **1202**
Crested wheatgrass, **1160**
Cross-sucking, **1183**
Crossbreeding, **1179**
calving ease and mortality in beef cows, 45
crosses of beef cattle, 15
ewe productivity under an accelerated lambing system, 967
preweaning performance of beef calves, 35
reproduction in Booroola-cross ewe lambs, 55
Crude protein
hay digestion by cattle and horses, 601
Crystallinity
crystallinity of carbohydrates by ^{13}C CP/MAS NMR, 695

Dairy
daughter difference in yield, 383
Dairy cattle, **1161**, **1174**, **1205**
rapid on-farm milk progesterone tests in dairy cattle, 997
bicarbonate buffers for dairy cows, 875
Dairy cow
cortisol in postpartum cows, 723
effect of α-tocopherol on oxidized flavor in milk, 561
periparturient behavior of dairy cows, 355
progesterone test kits, 207
Dairy cows, **1160**, **1163**, **1176**, **1177**, **1185**, **1186**
effects of somatotropin on lactating dairy cows, 795
energy supplementation, 867

milk fat variations, 731
Damp feeders, **1198**
Date of lambing
parameters of date of lambing and litter size, 771
Daughter
daughter difference in yield, 383
Dehorning, **1169**, **1204**
Delayed contact pulse sequence
crystallinity of carbohydrates by ^{13}C CP/MAS NMR, 695
Development, **1189**
Diet, **1199**
Dietary fat, **1187**
dietary fats and turkey reproduction, 679
Digestibility, **1161**, **1165**, **1167**, **1182**, **1192**, **1200**, **1205**, **1206**
Digestion
effects of Mo and S on minerals, 905
sequential digestion of cereals by rumen microbes, 571
Discriminant analysis, **1168**
Disease, **1168**, **1204**
Diumal variation, **1190**
Dorset-Leicester-Suffolk Sheep
ewe productivity under an accelerated lambing system, 967
parameters of date of lambing and litter size, 771
Dog, **1189**
Drug, **1199**
Dry matter, **1160**
Dry matter disappearance
Mo and rumen dry matter disappearance, 319
Drying, **1190**
Duration, **1173**
Duroc
inbreeding in Ontario pigs, 401
Dynamics, **1171**
Dystocia, **1168**

Ethylene diamine-di-orthohydroxyphenyl acetic acid
artificial rearing of colostrum-deprived piglets, 655
Efficiency, **1187**, **1202**
relation of weight gain to birth weight, 167
Egg yolk cholesterol, **1189**
Eicosapentaenoic acid
omega-3 fatty acids in pigs fed flax, 251
Electrical stimulation
electrical stimulation of Charolais carcasses, 1131
postmortem muscle glycolysis and beef quality, 431
Electrolyte balance, **1162**
electrolyte balance in transported bulls, 107
Elk
lactation and growth of wapiti, 551
Endocrine status, **1182**
Endoscopy
endoscopic technique for rumino-reticulum particulate kinetics, 219
Endurance exercise
endurance exercise in sheep, 97
Energy, **1187**, **1199**
gestation energy in sows and reproduction, 493
nutrient metabolism during gestation in gilts, 927
Energy consumption
sources of variation in weaning weight, 761
Energy intake
energy intake of breeder pullets, 259
Energy metabolism, **1198**
Environment
feed intake of growing bulls, 441
Enzyme
naked oats in broiler chick diets, 623
Escherichia coli
artificial rearing of colostrum-deprived piglets, 647
Estradiol
suppressed tonic LH secretion by estradiol in luteal ewes, 1147
Estrus
feeding low zearalenone levels to gilts, 635
GnRH at breeding in sheep, 983
vaginal mucus conductivity and breeding in swine, 451
Ethogram
ethogram of laying hens in cages, 751
Ethology, **1184**
Ewe, **1202**
suppressed tonic LH secretion by estradiol in luteal ewes, 1147
Ewe productivity
reproduction in Booroola-cross ewe lambs, 55
Exercise
progressive-resistance exercise in sheep, 89
Extrusion
nutritive value of canola screenings, 267

Farrowing, **1196**
Fasting
preslaughter management of beef cattle, 1155
Fat, **1161**, **1174**
body composition of animals, 1127
Fat depression
milk fat variations, 731
Fat-soluble vitamin phytase
naked oats in broiler chick diets, 623

Fatty acid
dietary fats and turkey reproduction, 679
poultry offal hydrolisate and pork fatty acids, 1041
Fecal particle size
reticular contractions and fecal particle size, 159
Feed efficiency, **1175**
Feed
buoyancy separation of particles and NMR examination, 1099
Feed intake, **1166**
feed intake of growing bulls, 441
nutrition and sow performance, 1085
Feed restriction, **1162**, **1170**
heat production of breeders, 667
Feed:gain
triticale for finishing heifers, 325
Feeder design, **1198**
Feeding, **1202**
Feeding behavior
distribution of cattle on slope, 1
Feeding level, **1205**
Feedlot, **1169**, **1204**
shearing and implanting feedlot lambs, 743
Femur
articular cartilage lesions of growing swine, 255
Fermentation, **1192**
Fertility
chromosomal anomalies among western Canadian beef, 779
Fetus
feeding low zearalenone levels to gilts, 635
Fiber, **1166**
hay digestion by cattle and horses, 601
Fiber characteristics, **1162**
Fighting
aggression in regrouped gilts, 363
Finnsheep
ewe productivity under an accelerated lambing system, 967
Fish meal, **1205**
Grain and protein sources for steers, 921
supplementation of grass silage for steers, 313
Flavomycin
flavomycin as a growth promoter, 937
Flavor
effect of α-tocopherol on oxidized flavor in milk, 561
Flax, **1188**
omega-3 fatty acids in pigs fed flax, 251
Flooding dose, **1201**
Fluid, **1182**
Fluorometry, **1164**
Focal ulcerative dermatitis, **1169**
Follicle, **1171**
Follicle-stimulating hormone
reproductive status in monensin-fed gilts, 1085
Forage, **1159**
Forage preferences, **1170**
Forage preservation, **1191**
Forage source
Ca, particle size and forage effects on digestion, 591
Formaldehyde, **1159**
formaldehyde treatment of barley, 581
Fox nutrition, **1200**
Fractionation, **1159**
Frequency, **1173**
frequency of halothane gene, 73
Fungal invasion, **1188**
Fusaric acid, **1201**

Game farming
lactation and growth of wapiti, 551
Garrison creeping foxtail, **1206**
Gaseous exchange, **1201**
Gastrointestinal motility
responses to somatostatin during cold exposure, 1073
Genetic correlation
inheritance of teat number, 425
parameters of date of lambing and litter size, 771
Genetic parameters, **1203**
Genetics, **1172**
Genotype
temperature response curves, 9
Gestating, **1184**
Gestating sow, **1185**
sterotypic behavior of sows, 953
Gestation, **1167**
nutrient metabolism during gestation in gilts, 927
Gilt, **1180**
feeding low zearalenone levels to gilts, 635
growth hormone and ovulation in gilts, 309
luteal hCG binding in pGH treated gilts, 719
nutrient metabolism during gestation in gilts, 927
reproductive status in monensin-fed gilts, 1085
Glucocorticoids, **1180**, **1195**
Glucose, **1196**
glucose, alanine and cold-exposed sheep, 517
Glutaminase, **1194**
Glutamine, **1194**
Glutamine aminotransferase, **1194**
Glutathione peroxidase, **1172**
Gonadotrophin-releasing hormone
GnRH at breeding in sheep, 983
cortisol in postpartum cows, 723

Gonadotrophin
growth hormone and ovulation in gilts, 309
reproductive-endocrine status of the boar, 121
Grades, **1179**
Grain, **1161**
Grain processing, **1200**
Grass
hay digestion by cattle and horses, 601
Grass silage, **1162**, **1191**
supplementation of grass silage for steers, 313
Grass species, **1205**
Grazing, **1184**
distribution of cattle on slope, 1
Grazing steers, **1187**
Growing pigs, **1200**
Growing steers, **1186**
Growth, **1187**, **1198**, **1202**
carryover effects of supplemental Cu, Mo and S, 735
crosses of beef cattle, 15
growth of mice sired by males with rat growth hormone transgene, 979
iron concentration in diets for grain-fed calves, 1053
lactation and growth of wapiti, 551
relation of weight gain to birth weight, 167
supplementation of grass silage for steers, 313
zeranol effects on the development of bull calves, 1005
Growth efficiency
growth efficiency in mice, 371
Growth functions, **1203**
Growth hormone
GRF analog, GH release and milk production, 525
growth hormone and ovulation in gilts, 309
immunization against somatostatin in gilts, 211
luteal hCG binding in pGH treated gilts, 719
pGH and thyroid function in swine, 991
Growth hormone-receptor, **1183**, **1195**
Growth hormone-releasing factor
effect of hGRF on ST in pigs, 785
GH, PRL, T_4, following pGRF/TRF injection, 821
GRF analog, GH release and milk production, 525
GRF and(or) TRF in dairy cows, 175
GRF and TRF effects on pig growth performance, 459
immunization against somatostatin in gilts, 211
Growth performance
GRF and TRF effects on pig growth performance, 459
Growth promoter
flavomycin as a growth promoter, 937
Growth rate, **1169**, **1172**, **1204**
response to selection for reduced backfat thickness in swine, 973
SRIF immunization to improve lamb growth, 1091
Growth-selected mice
growth efficiency in mice, 371
Guar gum, **1189**

Halothane gene
frequency of halothane gene, 73
temperature response curves, 9
Hampshire
inbreeding in Ontario pigs, 401
Harvest, **1190**
Hay, **1188**, **1190**
milk fat variations, 731
hCG binding
GnRH at breeding in sheep, 983
luteal hCG binding in pGH treated gilts, 719
Health
effects of somatotropin on lactating dairy cows, 795
Heat, **1161**
Heat production
feed temperature and cold susceptibility, 191
heat production of breeders, 667
ruminal cooling of sheep, 833
Heifers, **1162**, **1170**, **1178**
live body measures in beef females, 389
triticale for finishing heifers, 325
Heptachlor
chlorinated insecticides in bovine feces, 337
Herd effect, **1171**
Hereford
blood composition in growth selection bulls, 305
Heritability
calving ease in Ayrshires, 67
inheritance of teat number, 425
parameters of date of lambing and litter size, 771
Herring meal, **1189**
Holstein heifers
nuclear magnetic resonance and mammary glands, 1151
Holstein steers, **1176**
Hordeum vulgare L.
high-lysine barley derived from Risø, 1508, 279
Hormone, **1163**
GH, PRL, T_4, following pGRF/TRF injection, 821
GRF and(or) TRF in dairy cows, 175
Horse, **1189**
hay digestion by cattle and horses, 601

Housing, **1184**, **1185**
alternative housing system for sows, 957
sterotypic behavior of sows, 953
Hulless barley, **1186**, **1189**
Human chorionic gonadotropin injection, **1171**
Humerus
articular cartilage lesions of growing swine, 255
Hydration
bone volume and specific gravity, 1137
Hypothermia, **1169**

Identifying stress-susceptible pigs, **1197**
Ileal, **1165**
Illumination change, **1197**
Immune response, **1199**
Immunization
immunization against somatostatin in gilts, 211
SRIF immunization to improve lamb growth, 1091
Immunocompetence
mixing beef cows, 345
Immunoglobulins, **1174**, **1175**
artificial rearing of colostrum-deprived piglets, 647
artificial rearing of colostrum-deprived piglets, 655
In sacco digestion, **1161**
In situ disappearance, **1159**
Inbreeding coefficients
inbreeding in Ontario pigs, 401
Induced puberty
large and small cells from induced porcine CL, 987
Inoculant, **1192**
Insulin, **1201**
Insulin-like growth factor-1, **1183**, **1193**, **1195**
GRF analog, GH release and milk production, 525
GRF and(or) TRF in dairy cows, 175
Intake, **1162**, **1192**
ruminal passage rate of small particles, 243
Intake and digestibility, **1191**
Interrelationships
interrelationships between ram reproductive traits, 139, 149
Intestine, **1165**
Iron
iron concentration in diets for grain-fed calves, 1053
Iron chelators
artificial rearing of colostrum-deprived piglets, 647
Jejunum, **1176**

K^+-ATPase, **1176**
Kinetics
calcium kinetics in sheep, 1109

Lactating cows, **1171**
Lactation, **1163**
lactation and growth of wapiti, 551
lactation, ovulation and sow performance, 135
Lactoferrin
artificial rearing of colostrum-deprived piglets, 647
Lamb, **1169**, **1179**, **1180**, **1203**
shearing and implanting feedlot lambs, 743
SRIF immunization to improve lamb growth, 1091
Landrace
inbreeding in Ontario pigs, 401
Large round bales
preservation of moist hay, 611
Lathyrus
performance of chicks fed *Lathyrus sativus* after autoclaving, 739
Laying hen, **1197**
ethogram of laying hens in cages, 751
Legume, **1173**
hay digestion by cattle and horses, 601
sodium and potassium concentrations in the rumen, 235
Lentil
in pig diets, 329
Lighting, **1169**
Linear measurements
zeranol effects on the development of bull calves, 1005
Linoleic acid
omega-3 fatty acids in pigs fed flax, 251
Lipoproteins
large and small cells from induced porcine CL, 987
Litter size
uterine infustion of foreign proteins in swine, 129
Liver
Cu in the liver of sheep and cattle, 727
iron concentration in diets for grain-fed calves, 1053
Liver enzymes, **1180**
Load-carrying exercise
load carrying in sheep, 81
Longevity
early mating and longevity of gilts, 483
gestation energy in sows and reproduction, 493
Longissimus
quality variation within beef longissimus muscle, 707
Lupin seeds, **1167**
Luteal cells

large and small cells from induced porcine CL, 987
Luteal phase
suppressed tonic LH secretion by estradiol in luteal ewes, 1147
Luteinizing hormone, **1166**
cortisol in postpartum cows, 723
nutrition and sow performance, 1085
reproductive status in monensin-fed gilts, 1085
Luteinizing hormone pulses
suppressed tonic LH secretion by estradiol in luteal ewes, 1147
Luteotropic
suppressed tonic LH secretion by estradiol in luteal ewes, 1147
Lysine
diet methionine and lysine and broiler breast meat, 673
regression estimates of amino acids in Manitoba barley, 333

Macrophage, **1164**
Magnesium, **1172**
calcium kinetics in sheep, 1109
Magnesium treatment, **1196**
Major histocompatibility, **1164**
Malignant hyperthermia
blood enzymes in pigs, 543
Mammary composition
nuclear magnetic resonance and mammary glands, 1151
Management, **1194**
Mastication, **1161**
Mating
early mating and longevity of gilts, 483
Mature body weight
growth efficiency in mice, 371
Meadow foxtail, **1206**
Meat
iron concentration in diets for grain-fed calves, 1053
Meat quality, **1177**, **1178**, **1179**
postmortem muscle glycolysis and beef quality, 431
poultry offal hydrolisate and pork fatty acids, 1041
progressive-resistance exercise in sheep, 89
quality variation within beef longissimus muscle, 707
ractopamine on pig performance, carcass and meat quality, 943
Metabolic heat production
snow intake by pregnant cows, 507
Metabolism, **1172**, **1199**
calcium kinetics in sheep, 1109
calcium metabolism in sheep, 887
porcine adipose tissue and muscle metabolism, 199
responses to somatostatin during cold exposure, 1073
Metabolite
preslaughter management of beef cattle, 1155
Metabolizability, **1167**
Methaemoglobin, **1201**
Methionine
calcium and sulphur in canola meal, 685
diet methionine and lysine and broiler breast meat, 673
lentils in pig diets, 329
Mice, **1193**
growth of mice sired by males with rat growth hormone transgene, 979
nutritive value of canola screenings, 267
Microwave, **1169**
Milk, **1161**, **1174**
effect of α-tocopherol on oxidized flavor in milk, 561
GH, PRL, T4, following pGRF/TRF injection, 821
milk fat variations, 731
Milk composition
yield and composition of milk in beef cattle, 409
Milk fat depression, **1185**
Milk fatty acids
effects of somatotropin in lactating cows, 811
energy supplementation, 867
Milk motivation, **1183**
Milk production, **1187**, **1205**
bicarbonate buffers for dairy cows, 875
effects of somatotropin on lactating dairy cows, 795
GRF analog, GH release and milk production, 525
GRF and(or) TRF in dairy cows, 175
Milk protein, **1176**
Milk yield, **1162**
yield and composition of milk in beef cattle, 409
Mineral
effects of Mo and S on minerals, 905
nutrient metabolism during gestation in gilts, 927
Mixing
aggression in regrouped gilts, 363
mixing beef cows, 345
Model, **1167**
Moist hay
preservation of moist hay, 611
Moist heat
nutritive value of canola screenings, 267

Moisture content, **1191**
Moisture levels, **1192**
Molybdenum
carryover effects of supplemental Cu, Mo and S, 735
copper sources for growing steers, 895
effects of Mo and S on minerals, 905
Mo and rumen dry matter disappearance, 319
Monensin, **1182**
reproductive status in monensin-fed gilts, 1085
Monocyte, **1164**
Mortality
calving ease and mortality in beef cows, 45
Muscle
postmortem muscle glycolysis and beef quality, 431
Muscle distribution
endurance exercise in sheep, 97
Muscle fiber, **1177**

Neonatal piglet, **1180**
Neurochemistry, **1201**
Neutral detergent fibre, **1185**, **1186**
Neutralized propionate
preservation of moist hay, 611
Near infrared reflectance spectroscopy, **1160**
Nitrate, **1201**
Nitrogen, **1199**
nutrient metabolism during gestation in gilts, 927
Nitrogen metabolism, **1182**
Nuclear magnetic resonance
buoyancy separation of particles and NMR examination, 1099
nuclear magnetic resonance and mammary glands, 1151
Nutrient partitioning, **1167**
Nutrition, **1172**, **1193**, **1199**
Nutritive value
buoyancy separation of particles and NMR examination, 1099
Nylon bag, **1165**

Oat, **1200**
energy supplementation, 867
Oat bran, **1189**
Oat hulls, **1185**
Oat (naked)
naked oats in broiler chick diets, 623
Oilseeds, **1161**
On-farm, **1164**, **1194**
On-farm tests
rapid on-farm milk progesterone tests in dairy cattle, 997
Opioids, **1184**
Organic selenium, **1172**
Ovarian activity, **1194**
Ovary, **1183**, **1195**
Ovine progressive pneumonia, **1202**
Ovulation
growth hormone and ovulation in gilts, 309
lactation, ovulation and sow performance, 135
Ovulation rate
reproduction in Booroola-cross ewe lambs, 55
Oxygen consumption, **1176**
endurance exercise in sheep, 97

Pancreatic secretion, **1166**
Particle, **1182**, **1193**
ruminal passage rate of small particles, 243
Particle movement
endoscopic technique for rumino-reticulum particulate kinetics, 219
Particle size
Ca, particle size and forage effects on digestion, 591
Parturition
periparturient behavior of dairy cows, 355
Passive immunity milk replacers, **1175**
Pasture production, **1205**
Pea, **1200**, **1202**
Pelvic measures, **1168**
Performance, **1168**, **1171**, **1176**
inbreeding in Ontario pigs, 401
Phenotypic correlation
inheritance of teat number, 425
parameters of date of lambing and litter size, 771
Phenylalanine, **1201**
Phosphorus
articular cartilage lesions of growing swine, 255
Photoperiod, **1198**
Physiology
clonidine effects on cattle, 857
Pig, **1165**, **1166**, **1167**, **1181**, **1182**, **1184**, **1196**, **1198**
blood enzymes in pigs, 543
bone volume and specific gravity, 1137
early mating and longevity of gilts, 483
gestation energy in sows and reproduction, 493
GRF and TRF effects on pig growth performance, 459
inheritance of teat number, 425
lentils in pig diets, 329
porcine adipose tissue and muscle metabolism, 199
sexual maturity and gilt performance, 469
Piglet, **1195**, **1196**, **1199**
artificial rearing of colostrum-deprived piglets, 647, 655

GH, PRL, T_4, following pGRF/TRF injection, 821
immunization against somatostatin in gilts, 211
Pigiet mortality, **1196**
Porcine, **1195**
Porcine somatotropin, **1197**
Pork, **1178**
poultry offal hydrolisate and pork fatty acids, 1041
Postpartum, **1194**
Postpartum interval
bull exposure and postpartum interval in beef cows, 537
Postweaning, **1199**
vaginal mucus conductivity and breeding in swine, 451
Potassium, **1172**
calcium kinetics in sheep, 1109
Potassium and sodium bicarbonate
bicarbonate buffers for dairy cows, 875
Poultry offal
poultry offal hydrolisate and pork fatty acids, 1041
Prediction
regression estimates of amino acids in Manitoba barley, 333
Preference, **1184**
Pregnancy rate, **1171**
Pregnant cows
snow intake by pregnant cows, 507
Preservation
preservation of moist hay, 611
Preweaning growth
preweaning performance of beef calves, 35
Preweaning traits
crosses of beef cattle, 15
Primiparous cows
effects of somatotropin on lactating dairy cows, 795
Probiotics, **1187**
Processing, **1159**, **1161**, **1174**
sequential digestion of cereals by rumen microbes, 571
Productivity, **1185**, **1202**
sterotypic behavior of sows, 953
Progesterone, **1171**, **1180**
large and small cells from induced porcine CL, 987
nutrition and sow performance, 1085
progesterone test kits, 207
rapid on-farm milk progesterone tests in dairy cattle, 997
Progesterone kit, **1164**, **1194**
Protein, **1159**, **1160**, **1165**, **1166**, **1174**, **1187**, **1201**
body composition of animals, 1127
high-lysine barley derived from Risø, 1508, 279
Protein synthesis, **1182**
Proteolysis, **1192**
Puberty
sexual precocity in Romanov ewe lambs, 715
Puberty induction, **1180**
Purine, **1174**

Qualité de viande
steroides musculaires et qualité de la viande, 303
Quality, **1167**, **1178**
Quick test
chemical test for boar taint, 1029

Ractopamine, **1177**
ractopamine on pig performance, carcass and meat quality, 943
Ralgro
shearing and implanting feedlot lambs, 743
Ram
interrelationships between ram reproductive traits, 139, 149
Raspberry pomace, **1200**
Rate of passage
ruminal passage rate of small particles, 243
Rat
high-lysine barley derived from Risø, 1508, 279
Reed canarygrass, **1206**
Repeatability
parameters of date of lambing and litter size, 771
Repellents, **1184**
Reproduction, **1163**, **1166**, **1181**, **1203**
bull exposure and postpartum interval in beef cows, 537
dietary fats and turkey reproduction, 679
early mating and longevity of gilts, 483
feeding low zearalenone levels to gilts, 635
gestation energy in sows and reproduction, 493
lactation, ovulation and sow performance, 135
nutrition and sow performance, 1085
sexual maturity and gilt performance, 469
Reproductive efficiency
uterine infusion of foreign proteins in swine, 129
Reproductive management, **1164**
rapid on-farm milk progesterone tests in dairy cattle, 997
Reproductive performance
sexual precocity in Romanov ewe lambs, 715
Reproductive tract, **1194**
Reproductive traits
interrelationships between ram reproductive traits, 139, 149
Requirement

calcium metabolism in sheep, 887
Retail acceptability, **1180**
Reticular contraction, **1182**
reticular contractions and fecal particle size, 159
Retinol
ruminal degradation of vitamin A, 227
Retinyl acetate
ruminal degradation of vitamin A, 227
Return interval
modelling postpartum cows, 287
Roasting, **1160**
Romanov, **1179**
sexual precocity in Romanov ewe lambs, 715
Round bales, **1192**
Round bale silage, **1192**
Rumen, **1159**, **1174**, **1182**
reticular contractions and fecal particle size, 159
ruminal cooling of sheep, 833
ruminal passage rate of small particles, 243
Rumen bacteria
formaldehyde treatment of barley, 581
sequential digestion of cereals by rumen microbes, 571
Rumen cation concentrations
sodium and potassium concentrations in the rumen, 235
Ruminal degradability, **1160**
Ruminal degradation
ruminal degradation of vitamin A, 227
Ruminant, **1192**
buoyancy separation of particles and NMR examination, 1099
Rumino-reticulum
endoscopic technique for rumino-reticulum particulate kinetics, 219

Salmonid sperm, **1164**
Season, **1198**
reproductive-endocrine status of the boar, 121
Selection
age-of-dam adjustment in beef cattle, 963
blood composition in growth selection bulls, 305
frequency of halothane gene, 73
Selection differential
response to selection for reduced backfat thickness in swine, 973
Selection response
response to selection for reduced backfat thickness in swine, 973
selection for yearling weight, 1017
Semen viability, **1164**
Sex, **1180**
Sexual maturation
interrelationships between ram reproductive traits, 139, 149
Sexual maturity
energy intake of breeder pullets, 259
sexual maturity and gilt performance, 469
Shackling, **1178**
Shape
buoyancy separation of particles and NMR examination, 1099
Shearing
shearing and implanting feedlot lambs, 743
Sheep, **1170**, **1172**, **1174**, **1179**, **1181**, **1188**, **1198**, **1201**, **1206**
calcium metabolism in sheep, 887
Cu in the liver of sheep and cattle, 727
endurance exercise in sheep, 97
feed temperature and cold susceptibility, 191
glucose, alanine and cold-exposed sheep, 517
load carrying in sheep, 81
progressive-resistance exercise in sheep, 89
reproduction in Booroola-cross ewe lambs, 55
responses to somatostatin during cold exposure, 1073
ruminal cooling of sheep, 833
Silage, **1159**, **1173**, **1191**, **1192**, **1205**
Simultaneous equations analysis
modelling postpartum cows, 287
Sire
daughter difference in yield, 383
Skeletal muscle, **1193**, **1194**
porcine adipose tissue and muscle metabolism, 199
Slaughter bull
zeranol effects on the development of bull calves, 1005
Slope distribution
distribution of cattle on slope, 1
Small intestine, **1195**
Smooth bromegrass, **1160**
Snow
snow intake by pregnant cows, 507
snow intake by weaned calves, 711
Social environment
reproductive-endocrine status of the boar, 121
Social stress
mixing beef cows, 345
Sodium, **1176**
Somatostatin, **1181**
immunization against somatostatin in gilts, 211
responses to somatostatin during cold exposure, 1073
SRIF immunization to improve lamb growth, 1091
Somatotropin, **1163**
cortisol in postpartum cows, 723
effect of hGRF on ST in pigs, 785
effects of somatotropin in lactating cows, 811

effects of somatotropin on lactating dairy cows, 795
pGH and thyroid function in swine, 991
Sow, **1166**, **1167**, **1184**, **1199**
carcass characteristics of cull sows, 1141
GH, PRL, T_4, following pGRF/TRF injection, 821
immunization against somatostatin in gilts, 211
lactation, ovulation and sow performance, 135
nutrition and sow performance, 1085
vaginal mucus conductivity and breeding in swine, 451
Soybean, **1160**, **1205**
grain and protein sources for steers, 921
supplementation of grass silage for steers, 313
Soybeans, **1160**
Specific gravity
bone volume and specific gravity, 1137
Spontaneous oxidation
effect of -tocopherol on oxidized flavor in milk, 561
Starch
Ca, particle size and forage effects on digestion, 591
formaldehyde treatment of barley, 581
Starter, **1186**
Steer, **1161**, **1173**, **1182**, **1204**
reticular contractions and fecal particle size, 159
Stereotypic behavior, **1185**
sterotypic behavior of sows, 953
Steroides
steroides musculaires et qualité de la viande, 303
Steroids
chemical test for boar taint, 1029
Stocking rate
distribution of cattle on slope, 1
Stress, **1184**
castration stress in calves, 1063
cortisol in postpartum cows, 723
Stress susceptibility, **1196**
Stress-susceptible pigs
identifying stress-susceptible pigs, 845
Stunning, **1178**
Sucking, **1183**
Suckling, **1196**
Sulfur
carryover effects of supplemental Cu, Mo and S, 735
effects of Mo and S on minerals, 905
Sulphate, **1167**
Sulphate transport, **1165**
Sulphur
calcium and sulphur in canola meal, 685
Summer
shearing and implanting feedlot lambs, 743
Suncured alfalfa, **1185**
Sweet clover, **1188**
Swine, **1165**, **1167**, **1168**, **1177**, **1181**, **1190**, **1199**, **1201**
aggression in regrouped gilts, 363
alternative housing system for sows, 957
articular cartilage lesions of growing swine, 255
effect of hGRF on ST in pigs, 785
frequency of halothane gene, 73
pGH and thyroid function in swine, 991
ractopamine on pig performance, carcass and meat quality, 943
response to selection for reduced backfat thickness in swine, 973
temperature response curves, 9
uterine infusion of foreign proteins in swine, 129
Synthesis, **1174**

Tallow
energy supplementation, 867
Taurillons
steroides musculaires et qualité de la viande, 303
Teat number
inheritance of teat number, 425
Temperature
feed temperature and cold susceptibility, 191
ruminal cooling of sheep, 833
temperature response curves, 9
Temporary weaning, **1203**
Test kit
progesterone test kits, 207
Testicular development
zeranol effects on the development of bull calves, 1005
Testosterone
castration stress in calves, 1063
reproductive-endocrine status of the boar, 121
Thermal, **1182**
Thyroid
pGH and thyroid function in swine, 991
responses to somatostatin during cold exposure, 1073
Thyrotropin-releasing factor
GH, PRL, T_4, following pGRF/TRF injection, 821
GRF and(or) TRF in dairy cows, 175
GRF and TRF effects on pig growth performance, 459
Timothy, **1205**, **1206**
Tissue distribution
load carrying in sheep, 81
progressive-resistance exercise in sheep, 89
Toe clipping, **1169**

Transgene
growth of mice sired by males with rat growth hormone transgene, 979
Translocation
chromosomal anomalies among western Canadian beef, 779
Transport stress
electrolyte balance in transported bulls, 107
Transported cattle, **1162**
Tritiated water
snow intake by weaned calves, 711
Triticale
triticale for finishing heifers, 325
Turkey, **1169**
flavomycin as a growth promoter, 937
Turkey hens
dietary fats and turkey reproduction, 679
Type-I-receptor, **1183**, **1195**

Ultrasonography, **1171**
Ultrasound imaging, **1194**
Undegradable protein, **1176**

Vaginal conductivity
vaginal mucus conductivity and breeding in swine, 451
Variance
calving ease in Ayrshires, 67
Variation among half-sibs
phenotypic variation within paternal half sib families, 703
Veal calf, **1183**
Vitamin, **1199**
Vitamin A
ruminal degradation of vitamin A, 227
Vitamin E, **1174**
effect of α-tocopherol on oxidized flavor in milk, 561

Wapiti
lactation and growth of wapiti, 551
Water, **1167**
snow intake by pregnant cows, 507
Water influx
snow intake by pregnant cows, 507
snow intake by weaned calves, 711
Water intake
snow intake by weaned calves, 711
Weaning, **1186**
Weaning weight
phenotypic variation within paternal half sib families, 703
sources of variation in weaning weight, 761
Weathering
preservation of moist hay, 611
Weight, **1180**
reticular contractions and fecal particle size, 159
sexual maturity and gilt performance, 469
Weight gain, **1193**
Welfare, **1183**, **1184**
alternative housing system for sows, 957
Wet/dry feeders, **1198**
White clover, **1173**, **1193**
Winter
feed intake of growing bulls, 441

Yearling weight
age-of-dam adjustment in beef cattle, 963
selection for yearling weight, 1017
Yorkshire
inbreeding in Ontario pigs, 401

Zearalenone
feeding low zearalenone levels to gilts, 635
Zeranol
zeranol effects on the development of bull calves, 1005
